How to Complete a Horticulture Entry Card

If you choose to enter & print on the computer, after accessing the form, enter/type information into the blue text boxes. You should then print on white card stock, or you may print and then fill in with black waterproof ink. (Please note: If your printer goes rogue and prints the Hort entry cards larger than they should be, select "actual size" in your preferences. Completed card should measure approximately 3 7/8" wide X 8 1/2".)

Please read and follow the directions below to fill out the Horticulture Entry Card correctly.

- Leave the **Passed** and **Award** blank; enter your **Entry #** if you have been given it for Classes requiring pre-registration (Classes 8 – 11). Entry #s for Cuts and Par will be assigned after they are passed.
- Enter **Class** number from Horticulture schedule.
- **Botanical Name** - use proper nomenclature, see page 230 in the Yellow Book. In the case of multiple plantings, where use of a Key Card is required, enter "See Key Card," if there is not enough room to list all your plants legibly.
- **Common Name** – again, this should be completed, but "See Key Card" will suffice as for the botanical names, if needed.
- Enter **length of ownership** in months or years.
- If **Propagated by Exhibitor** check box for yes.
- If **Propagation Card** is complete check box. Must be included to qualify for special award.
- Check box if **Key Card** is included. A Key card must be included for an entry with more than one plant.
- Describe **Growing Conditions**: e.g., greenhouse, windowsill, artificial lights, outdoors, exposure to natural light
