The markets are pretty chilly so dress warmly and wear gloves. You'll be glad you did!

If these times do not work for you Joan suggests that you call the individual companies and inquire about their public hours. Most offer on Tuesday usually in the afternoon.

More tips from Joan: Have your vase already picked out before you go or have a really good idea of what vase you are looking to buy so you can focus your search at Northwest Wholesale Florist. While not necessary to have it figured out it helps you with your flower selection. She also likes to have big buckets in her garage ready to go for conditioning her flowers. She gets buckets from Home Depot that are about 20" tall.

If you need to reach Joan the morning of December 6 please text her at 206.856.5950
